Of the Cure of A Gonorrhæa *and* A Gleet, *without Taking in any Thing at the Mouth.*

BY *A* GONORRHÆA is here meant That Degree of the Venereal Diſtemper that ſhews it ſelf by *A Dripping & Coming away of Foul Matter from a Human Body, uſually attended with a Smarting Pain in making Water, and a particular Soreneſs, Heat, Redneſs, Swelling, Inflammation and Uneaſyneſs of that Part of the Body, that Firſt took the Infection.*——So that *A Gonorrhæa* is no more than the Effects of *An Injury done to, and received on That* ONE *particular* PART *of the Body.*

Juſt as a Cut on a Finger, or a Broken Shin, or a Bite of a Mad Dog, or the Sting of any Venomous Creature, or a Wound on a Leg, or an Arm, are Injuries done only to thoſe particular Limbs or Parts of the Body that are Hurt.

And therefore, to Cure a Cut Finger, a Broken Shin, a Sting of any Venomous *Creature*, or a Wound on any Limb, the only Way is to apply proper Remedies to that Part or Limb of the Body it ſelf, that has received the Damage.

So that, As the Bite of a Mad Dog, or any other Venomous Creature at Firſt, and for ſome Time, are only *Local* and outward Injuries, reſiding only in that Part or Limb it ſelf of the Body that is Wounded, and in no other.

And therefore may by proper Applications outwardly, be thoroughly Cured, without taking any manner of Phyſick.

Or, As a Whitloe, or a Cut on a Finger. — Or a Wound on a Leg or an Arm, is to be COME AT and cured much more immediately, by applying Remedies to the very Part it ſelf that is wounded, than poſſibly can be done by all the Phyſick in the World taken into the Stomach. So Phyſicking the Stomach for *A Gonorrhæa* is as much to the Purpoſe, as if a Perſon ſhould fall a taking of Phyſick for only a Sore Finger, a Broken Shin, or any particular wounded Limb.

It being in the Part it ſelf, and not in the Stomach, nor any where elſe in, or about the Body, that the *Venereal* Infection at FIRST reſides for ſome time after it is received, during the *Firſt* Degrees of this wretched Diſtemper.

So that the Blood having no Manner of Share as yet in the Infection, the Part it ſelf that *Firſt* received it, being as yet the *Only Place* of the Body that is infected by it;

What need of ſo much Phyſick taken into the Stomach? And which Phyſick, muſt of Neceſſity be ſome Time before it can reach the ailing Part at ſuch a Diſtance from it, as the Mouth is. Whereas the Part, by this Method of Dr. *Cockburn*'s of Curing it, is much more immediately COME AT, and Cured, & by Conſequence much more immediately freed from the Infection, than it can poſſibly be, by any Phyſick taken in at the Mouth.

It has indeed been a long unhappy Cuſtom to put Perſons for only the Cure of what is commonly called *A Clap*, into Courſes of Purging Phyſick, under the Notion of carrying off the Infection. And 'tis alſo true, that to perform a Cure, the Infection and Venom that has been received, MUST be taken away; But Why ſo much Phyſick for it?

If this can be effected by Eaſier Means, 'tis entirely unneceſſary that Perſons ſhould take ſo much Phyſick as generally is given to them, to get rid of what might be much eaſier Cured by an immediate Application to the Part it ſelf without the Nauſeouſneſs and Fatigue of ſo much Phyſick.

And this by taking away the Venom and Infection from the Part by a particular *Chymical Lotion*, contrived on purpoſe thus to Cure the Part it ſelf with, without taking of Phyſick.

And which Lotion Frees it from the Infection & takes away the *Running, & Heat of Urine*, and Cures it much better and more immediately, and by conſequence a great deal ſooner, than any Medicines can poſſibly do, taken in at ſo far a Diſtance off from the Part, as the Mouth is. —— So that

By this Method Perſons may, without taking of Phyſick preſently Cure themſelves for even a Triſle of Charge, of what otherwiſe would coſt a long, tedious, expenſive Cure.

This Method performing more in one Hour, than harraſſing with Slip-ſlops of Medicines does in many Days, nay ſometimes Weeks. —— The Efficacy of this Method of Cure viſibly appears to every Patients own Eyes, as follows.

The Patient is privately in their Chamber to pour out into a Tea or Coffee cup a Spoonful or two of this Lotion.

And then to HOLD THE PART in it, and to let the Fore-skin and Nut of it LIE and SOAK ſome little Time in it, and to waſh and cleanſe it with it, according to the Directions which are ſealed up with it. This is not only comfortable to the Patient but makes a total Riddance of the Diſeaſe, and *All* its torturing Symptoms AT ONCE.

For this Lotion being thus uſed, the Patient will viſibly ſee the Lotion to be perfectly diſcoloured again with the Venereal Infection and Venom, which it has by the Method freed and cleared the Injured Part of.

Inſomuch, that upon only ONCE uſeing this Lotion Perſons will find ſuch a comfortable Change, and Alteration in themſelves, by being rendered ſurprizingly eaſy, and (to uſe the Expreſſion of Patients about their Smarting Urine) they ſeem'd to void Pins and Needles before, the Part was ſo very ſore. ——And after another Time or two uſeing it, the Dripping of foul Matter ceaſes, & the Part rendred eaſy & well, it taking the Infection quite from

And this, in one Word, is the viſible Effect of this compendious Method of Cure.

And which proves to the very Eye, that this Method performs the Cure in theſe FIRST Degrees of the Diſtemper much better than any Medicines taken in at the Mouth can poſſibly do. The Sum of all which in a few Words is,

That, this Lotion will, when uſed, appear thus diſcolour-ed, till it has freed the Part of the Infection it had received:

And which Perſons will find to be generally at a few-times uſeing it, giving them ſurpriſing Eaſe and Relief.

Upon which, the Smarting Pain in making Water, with the Soreneſs, and Swelling tending to *A Cordee*, or *A Bubo* ceaſe.

Thus what is commonly called a *Gonorrhæa*, or a Clap, is preſently and eaſily cured, and for a ſmall Expence.

Becauſe this Method preſently relieves them, and ſets all to rights again, as if no ſuch Misfortune had befallen them:

And this without any Manner of Confinement, Hindrance of Buſineſs, or other TELL-TALEING Circumſtance.

Whereas other Methods keep them *Long in Hand*, Nauſe-ates the Stomach, and betrays the Perſon into the Bargain.

For by this Method the Part it ſelf which as yet has been the only *Firſt* Sufferer, Receiver and Retainer of the Infec-tion, is cleared and freed from it, without harraſſing the Stomach, and the reſt of the Body, that as yet has *Nothing at all to do with it*, having no manner of Share in the Di-ſtemper, it being (as yet) only Local, and reſiding only in THAT Part that *Firſt* received it, and THERE only as yet ſhews it ſelf, and no where elſe in, or about the Body.

And that this is no Particular Private Opinion, or the Sin-gle Opinion of *One Man only*, but a Method of Cure re-commended by the ableſt Phyſicians, their Writings on this Subject fully ſhew. For Example, A Treatiſe by an able Hand, Entituled, *A New Method of Curing without internal Me-dicines the Venereal Diſeaſe*, Printed for *J. Morphew* near *Sta-tioners-Hall*. 1711. Clearly ſhews this Method of Cure to be the Opinion of Dr. *Drake*, Dr. *Cooper*, and other Great Men.

Another Treatiſe on the ſame Subject, has been alſo Publiſhed, in 1719. Entituled, *An Account of the Cauſe and Cure of a Gonorrhæa, proving that the Cure of a Gonorrhæa is* SAFER, EASIER, *and* SOONER *effected by Outward Applica-tions, than by any Manner of Phyſick taken by the Mouth.*

But there is one Eminent Author that is equal to all, who has ſtrenuoſly appeared in Defence of this Cauſe, and that is Dr. *Cockburn* of St. *James's-Street*, who has publiſhed a Treatiſe in Defence of this Subject well worth every Venereal Patient's Reading Entituled,

The Symptoms, Nature, Cauſe & Cure of A GONORRHÆA. By *W. Cockburn*, M. D. Fellow of the Royal Society, & of the College of Phyſicians. Printed for *G. Strahan*, at the *Golden Ball*, againſt the *Royal Exchange* in *Cornhil*, 1718. In

In which Treatiſe is fully proved, that *That* Pother and Ado, which has been ſo much in Faſhion of giving ſuch Quantities of Phyſick inwardly to Patients for the Cure of Venereal Injuries, is entirely WRONG, & that the Diſtemper may be much *Eaſier*, far *Sooner*, *Better*, & *Safer* cured by the Method of A LOTION, than by any Medicines taken in at the Mouth. — And after Dr. *Cockburn* has thus proved the beſt Method of Cure of a Gonorrhæa and *A Gleet*, to be by Way of *A Lotion* without taking in Phyſick at the Mouth; he concludes his whole Diſcouſe in theſe Words.

" *If ever therefore Practitioners reaſon againſt this Me-*
" *thod of Cure* (of a Gonorrhæa and a Gleet, *viz. without*
" *Taking of Medicines* Inwardly) *'tis more to fright en the*
" *Patients, than to conſult their Healths, Reaſon and Experience*
" *demonſtrating the Power of it, and aſſuring us that theſe Diſor-*
" *ders are* SOONER *and* BETTER *Cured by this Method, than*
" *by any other and the greateſt* Heat of Urine *is taken off by it in*
" *a few Hours, which often reſiſts the beſt Medicines. The* Safety
" *alſo of this Way, (viz. without taking Phyſick) is far greater than*
" *can be pretended in any other Methods. And therefore, as there*
" *is no Competition lies between the Succeſs of this Method and*
" *others, our Endeavours ought* ALL *to be employed about it; that*
" *very worſt Effects of a Gonorrhæa being remedied by it in the*
" *ſhorteſt Time,* WITHOUT ANY PAIN, *and with the greateſt*
" *Certainty.* Thus Dr. *Cockburn* in his abovementioned Treatiſe of a Gonorrhæa, Part 2. Chap. 1. and Preface.

From all which it plainly appears, that there are TWO Methods of Cure of *A Gonorrhæa*, and a GLEET.

Viz. An INDIRECT, and a DIRECT one.

The INDIRECT Method is by Pills, Boluſſes, Diet-drink and other ſuch Phyſick, and goes unneceſſarily ROUND ABOUT, and may be compared to a Perſon, who to repair ſome outward Injury done to the *Outſide* of his Houſe ſhould fall a Scouring out every Room and Corner *Within*.

This DIRECT Method by way of this Lotion, is Dr. *Cockburn*'s Method, and ſaves all this Trouble, and Ado:

And (to allude to the foregoing Examples) applies immediately to the very Place & Limb it ſelf of the Body,

Where the mad Dog or Venomous Creature has bit:

Where the Whitloe it ſelf is:—To that Limb where the Wound has been actually given: —— And to that Part only of the Front of, or particular Room of the Houſe, that has been damaged, & wants repair.—In the ſame manner:

By this eaſy commodious Method of freeing the Part it ſelf from the Infection it had received by a Lotion, without Fatiguing the reſt of the Body with Multiplicity of Medicines, theſe wretched Diſorders are Cured much better than any Phyſick can otherwiſe poſſibly do.

As therefore, It would be going very much *About the Buſh*, entirely WRONG, to fall a Purging & Harraſſing a Perſon's Conſtitution with nauſeous Phyſick taken into the Stomach, for only a Cut Finger, Or for a Wound on a Leg, or an Arm, all which might be much Better COME AT, and cured, by applying proper *Things* to the wounded *Limb* it ſelf: So in the ſame Manner, the Infection being received into only ONE particular Part of the Body, and as yet THERE only retained, it may be much eaſier COME AT, taken a way, and Cured by an immediate Application to THAT part it ſelf, than it can poſſibly be, by all the nauſeating Phyſick in the World. And this without Suſpicion of even Bed-fellow, or Confinement, or other *Difficulty*, as well as no ſuch *Thing* had been. Theſe Lotions being as CERTAIN cures of any Venereal Running of foul Matter, or Pain of Urine, or a GLEET as a Plaſter laid to a cut Finger is CERTAIN to cure it, and therefore diſappoint no one, as thoſe who uſe them find.—For in Venereal Injuries the *Purging* Lotion frees and clears the Part from the Infection, takes it quite away, with the Running & Heat of Urine, and thereby fully ſupplies the Office of Pills, Boluſſes, &c. And By only waſhing the Wheals, Bliſters, Frettings, Sawneſſes, Ulcers, or other Venereal Soreneſſes on the part with this Lotion, it likewiſe takes them away. So that this one Lotion alone here does the Work.

And as for a GLEET, or other ſuch Draining *Weakneſſes* of either Sex, — Another Lotion, called by the Name of the *Strengthning Lotion*, entirely takes the Diſorder away.

Either of theſe Lotions For the Convenience of Perſons of either Sex, are to be had Sealed up with Directions in *Engliſh* and *French*, ſo eaſy and plain, that Perſons may privately & preſently Cure themſelves of either *A Gleet* or *A Gonorrhœa* without Suſpicion, farther Trouble, or adoe. The Price (that they it may be eaſy to every one, as they are certain in their Effects) is no more than *7 s. 6 d.* Each.

How Perſons are to manage themſelves in the other more advanced Degrees of the Diſtemper, and how they are Privately to do in Caſe of a BUBO either broke or like to break; Danger of NOSE; Purſing up and immoveableneſs of the Foreskin; Sore Mouth, Throat, or Noſe, SHANCRES, CORDEE, *Bloody* Urine, Venereal Warts and Scabs, Clear watery little Bliſters on the Part, Breakings out, *&c.* The following VENEREAL DISPENSATORY compleatly Inſtructs every Venereal Patient what they are to do, and how they are to Cure themſelves without adviſing with, or conſulting any one, either by Writing, or Word of Mouth, or telling your Caſe to any one.
